Profile Summary

Graduate seeking an entry-level opportunity where I can contribute positively, learn continuously, and grow within a supportive and professional work environment. Ready to learn new skills and contribute to teamwork.

Technical Skills

- **Languages:** Java (J2SE, J2EE)
- **Frameworks:** Spring Boot
- **Web Technologies:** HTML, CSS, Bootstrap, JavaScript
- **Architecture:** Microservices
- **Web Services:** REST API
- **Databases:** MySQL
- **Tools:** GitHub, Eclipse, Postman
- **Soft Skills:** Problem-solving, Team Collaboration, Strong Communication

Technical Proficiency

- Understanding of JVM Architecture, Heap Memory, Stack Memory, and Garbage Collection process.
- Understanding of Object-Oriented Programming (OOP) concepts including Encapsulation, Inheritance, Polymorphism, and Abstraction.
- Familiar with JDBC concepts and database connectivity using MySQL.
- Worked with Interfaces and Abstract Classes and applied object-oriented design principles.
- Understanding of Exception Handling including exception hierarchy, try-catch-finally, custom exceptions.
- Understanding of Access Modifiers (private, default, protected, public) and their usage in Java class design.
- Familiar with Multithreading, Thread Lifecycle, and Synchronization concepts in Java.
- Understanding of REST APIs and backend development using Spring Boot.

Education :

Sri Sarathi Engineering College, Nuzivid Nov 2021 – Apr 2025
B.Tech (CSE)
GPA: 8.2/10.0

Board of Intermediate Education, Gudivada May 2019 – Mar 2021
MPC
GPA: 8.8/10.0

Board of Secondary Education, Mudinpalli Mar 2018 – May 2019
SSC
GPA: 10/10.0

Projects

Student Management Web Application
Technologies Used: Servlets, JDBC, MySQL

- Built a web application using Java EE technologies to manage student data.
- Applied MVC Architecture to separate business logic and presentation layers.

- Used Servlets and JSP for handling user requests and dynamic content generation.
- Integrated MySQL database for secure storage and retrieval of student records.

ATM Simulation System
Technologies Used: Core Java, OOP, Exception Handling, Multithreading

- Designed an ATM system allowing deposit, withdrawal, and balance inquiries.
- Implemented Multithreading to handle simultaneous transactions.
- Developed Custom Exceptions for handling insufficient balance and invalid inputs.
- Used Java classes and methods to simulate real-time banking operations.

Hospital Appointment Booking System
Technologies Used: React.js, Spring Boot, REST API, SQL, Postman

- Built a full-stack doctor appointment application using React for frontend, Spring Boot for backend, and SQL for database.
- Implemented patient registration and login functionality.
- Designed a hospital dashboard with doctors categorized by specializations.
- Stored appointment data and maintained appointment history in the database.
- Tested APIs using Postman.

Certifications

- SQL Fundamentals
- Java
- Salesforce Internship

Achievements

- Delivered a technical presentation on Core Java concepts at college seminar.
- Recognized as Student of the Month for academic excellence and active participation in institute activities.

Declaration

I hereby confirm that the information given above is true to the best of my knowledge.
